BUS TRANSPORTATION

The Minneapolis bus drivers seem to try harder now to help riders make transfer connections. The buses would be full more of the time if they ran more often. Once people found they wouldn't have to wait so long for a bus they would soon discover that it is much cheaper, easier, less polluting and a lot less hassle than driving. Now that the people own the bus company we should even lower the fares because we don't need to make a profit on ourselves. This would bring more riders too. Also, the drivers should manage the bus Co. because they are closer to the whole situation.

COMMUNISM OR FREEDOM ?

I'm against communism, socialism, democratic capitalism, fascism, religious rule, dictatorship and any kind of order which tries to tell man what he must do. (If I could not have Freedom I would choose democratic capitalism.)

When man is constantly being pushed down by someone above him and cheated on every side, he becomes the same way, in order to survive. He pushes down on someone that is below him.

When we have everything free, there will be no need to steal or murder to get what you want. You'll be able to go to the store and get things free. If someone would try to beat you up, your neighbors would help you out because we would then find a greater meaning in people than in material things. We could then understand that friendships are far superior to things. The culprit would soon have no friends if he was not considerate of others. So, we'll have no need for policemen, jails, courts, armies or governments.

In a Free world man won't have to struggle in order just to survive. In this free environment man will become sane, loving, kind, peaceful, creative and perhaps even genius.

by C. S., Mpls.

FORGIVE AND FORGET

Let's take people for what they are today. Not for some organizations, acts or words that we think they were in the past. Lets try to see people as brother and sister human beings, who are in a mental growing process, as we are. Some of us grow slowly and some faster. With a little tolerance we can let people grow at their own speed. Let's work together from here on. We can bring the Free World in and we will all be better off.

HOW MANY?

How many more Vietnamese boys, mothers, kids, grandparents and dads do you want our American boys to murder before you do something to try to get the war stopped? How many more Vietnamese homes and farms do you want our American boys to burn? For every days death and wounded toll you are responsible if you are not trying to get it stopped.

SALT

The damn politicians are allowing salt on the Minneapolis streets again. This salt does a tremendous damage to so many things, like; it eats away the concrete, kills the grass and trees, rusts our cars out, and worst of all it finally pollutes the river. Lets use sand like we used to. Is the city digging that big hole in front of the court house for us to deposit our rusted cars in?

MODEL CITY

The building inspector was at my house recently and told me that I must do a lot of things to my house, or else. One thing was that I must put a new lineolum down in my kitchen. Pooie! My home is my castle. I don't think anyone has a right to tell me how I must live. So long as I don't hurt anyone else. Model City Redevelopment and all government must goooooo.

ARTY CHOKE

PACKY DERM

HERE'S THE FLYING
ACE, ARTY CHOKE,
CIRCLING HIS PREY.

READY
TO DIVE.

SHE'S ONLY
GOOD FOR
ONE DIVE
A YEAR.

I THINK
I'LL STICK
TO WORMS.

WHAT YOU CAN DO

We can change the system "from Greed-
dom to Freedom" in less than a year
if you will help. Our first step is to
let people know about our ideal. To
paint a picture of Freedom that people
can understand. To show them how it
could be a possibility. To give them
enough confidence in the Freedom con-
cept to enlist their help in eliminating
"all means of accumulating and using
power over people" (God damn it! I
wish someone who can say this better
than me would help me out or start his
own paper.) To tell them how wonder-
ful life on this planet will be when we
take Freedom.

Just think - transportation and hotels
and restaurants will be free. Think of
all the fun of traveling all over the
world on planes, trains and busses for
free. Of seeing places and people that
we have always wanted to see. The
earth will become what it should be -
a playground for people, not a battle-
ground. Instead of working against each
other with the money-profit motive we

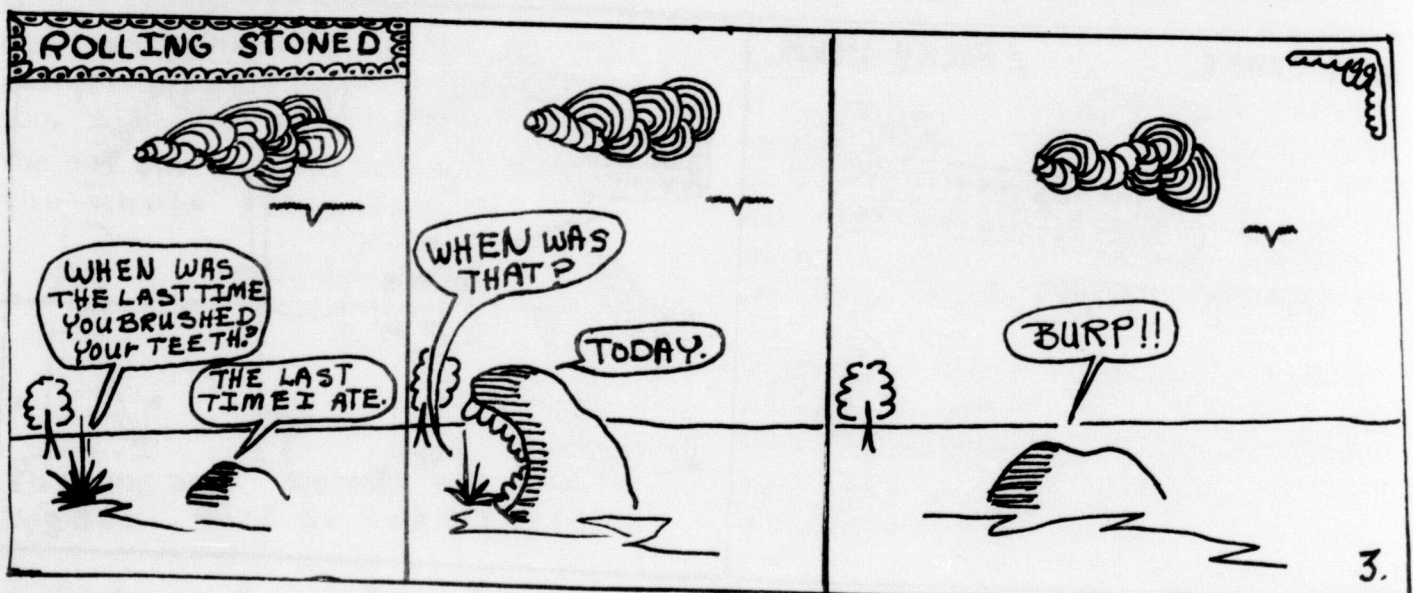

will work for each other to make things
better and easier for us all.

I don't think we can just sit around rot-
ting our brains and bodies at our pre-
sent useless pastimes and expect the
super-rich to give up their power, of
their own accord. Like they say in
church - "We are a flock of sheep."
They are going to keep on fleecing us as
long as we stand still for them.

So start now to believe in yourself and
know that you have great genius with-
in you. As you start exercising your
"thinker" it will grow stronger and
and greater and you will start to see
solutions and ways to Freedom.

You will understand that Freedom will
come much faster if you help to spread
this information in your neighborhood,
to your friends and relatives all over
the country. And if they understand and
do the same thing - think how fast this
will pyramid out to cover everyone.

It could be like the old pyramid chain
letter. Like: If 1/5 of the readers of

the 5,000 papers I gave out and mailed, would each distribute 1,000 papers, that would be one million papers put out. If 1/5 of them distributed 1,000 copies, that would be 200,000,000 copies distributed. This pyramid would work quite fast. Of course the percentage would probably be less, but it would just take a few more steps in the pyramid to get the same coverage.

By this time I believe the good people who work in the super-rich owned news media will start helping, and ignoring their bosses. I think they may be the first people to take control of their places of work. They will be the "Super-makers" of the Free World, if they do.

Then the next step will be easy. We will all continue at our work but we will refuse to take pay. We will produce and distribute but not take pay. So that makes everything free. We will refuse to acknowledge anyone as our boss and will do our job, whatever way seems best to us. Those of us who are doing work that seems non-essential and without meaning will start helping out in some necessary work that we like doing. This will shorten the working hours for those who are now doing the necessary work. There will be millions of us who are now doing un-essential work that will change-over and help in the necessary work. That of course means that we will all have a very short work week or work year.

The only ones who could stop us from taking over the places of production would be the police and the armed forces. And these are all people of our class. They will have more to gain by being with us. So lets convince our brothers, dads, uncles, sons and grand-

sons to take off their uniforms and come home and help with the essential work.

DROP-OUT ?

Some may feel that they can be more effective by dropping out of the rat race to have time to think. By looking at our present system from the outside or or from afar, one can sometimes get a better view of it. You may understand its workings better if you are not dependent on it each day. Perhaps then you will see that we have a bad system. If you then do some looking, listening, talking and reasoning you may arrive at a better plan for Freedom than we have outlined here. We welcome ideas that would improve or be better than this plan for Freedom.

BOYCOTT

Do you suppose we could get the large store owners to help us get the war stopped? Also the large manufacturers who supply the stores? Could we get people out of the Christmas present buying spirit by picketing the big store areas with signs on our jackets or on posters which read like: "Have a Happy Holiday, the Vietnamese can't", and "Have a Nice Day ☺ the Vietnamese can't ☹", "Who makes money from War?", "Who profits from War?" and "X-mas in Viet Nam means - Widows, Orphans and charred farms" and other short thoughts that will remind people of what we are really doing in Viet Nam. Once the super-rich start hurting because of a loss of sales, they may tell Nixon to pull out a bit faster.

FEAR

Are we being conditioned in the news media to be afraid? Look and see. Why?

WANTED

Someone to give us a condensed report on how much arms we have given or sold to West Pakistan. Who made the money on the transaction? How long ago did we start arming them? How many advisers do we have over there? Did some of our arms get to East Pakistan? Do we or have we ever sold arms to India? If so, how many dollars worth? Who made the money on this deal? Are there prospects of oil in E. Pak.? Or do they have some other natural resource that we want? Or do we just want to keep the arms companies busy making money?

Have a nice day.

The Vietnamese can't.

ESTABLISHMENT PHILOSOPHY?

"Tell the kids to get their own heads straight before they try to change the world." "Ha ha, that should keep them off our backs for the rest of their lives, because one can never reach perfection." I hope we won't fall for stuff like that because you don't have to be very smart to see that there is plenty wrong with the present system.

AMCHITKA

We tried to stop the government nuclear test but found out again that we don't control the government. They have just had three earth quakes in that area. It will probably be some time before we discover all of the real damages.

AWARENESS OF SELF

You are a man or a women and you possess within you all the same physical and mental qualities of todays leaders. They are not superior to you. The only difference between you and the leaders in government, business, and the churches is the fact that they realized man's conditioned, not natural, weaknesses and are making a profit and gaining power behind your backs on these weaknesses that they themselves have created and keep in creation. The conditioned weaknesses being that of the government telling you that you have no self-control and discipline and have to be locked up if you step out of line. Also business creating a market for unnecessary goods they produce and then advertise by various media as being necessary to man's well being.

Religion tells us that we are so weak as to need someone to watch over us and that if we put our faith in a God all our problems are his problems and we can be happy all the time. The faith that should rightfully be placed in ourselves and each other is being diverted by these self pronounced leaders and placed in false hopes and ideas thus keeping man from securing this faith and self discipline and moving on to real progress for man's future.

by R. A., S. Dak.

DROP - IN

Please feel free to drop-in at our place any time you want papers or just to chat.

HELP!

To make this into a good paper we need some more people to help; hand out papers, address papers, write, type, do natural foods cooking, research, etc. If you can't do any of the above, we need office and printing equipment and money.

* * * * *

GOVERNMENT is absolutely a non-essential. Just a tool of the super-rich, used to control the sheep, so that they can be fleeced.

* * * * *

ABOUT US

Vol. 2 No. 4 was devoted mostly to explaining our conception of what a Free World may be like. If you would like a free copy of that, please send us a stamped self addressed envelope. If you would like more copies of the current issue, you may have it reprinted or get more copies from us. Our small staff donates its time and energies to get this paper out. Do you know a printer who would donate the printing? This is our biggest cash outlay. This is a "free" paper. We will not be able to continue publishing if the people who like this paper do not help with some work or money. Our address: 715 E. 14 Street, Mpls., Mn. 55404. The editor, Larry F. Johnson, a Mpls. drop-out Realtor and ww 2 veteran, dropped out two years ago because of the ever increasing government controls, gov. waste war, higher taxes and you name it. 6.

(Chuang)

Offer the wealth of the world for good conduct and threaten all the punishment in the world for wicked behavior, and this will still be insufficient. Consequently, one cannot reform men with all the inducements and deterrents in the whole world. Yet from the Three Dynasties on down, the people have been forced to live in a helter-skelter of promotions and penalties. Were a Superior Man unavoidably compelled to take over the government, he would know that nothing could surpass inaction. Only by means of letting people alone can one allow them to peacefully fulfill the natural instincts of their lives. Only he who values all other beings as much as he values himself can be trusted with control of the government.
